

Purple Lounge launch new gaming site developed by PDMS

Purple Lounge have launched a new on-line poker gaming site, www.purple-lounge.com, part of the world's largest online poker networks, Prima Poker.

The website and administration systems have been developed by PDMS using their Foundations TM technology. The project, which involved integration with several other third party systems, was delivered by PDMS in a tight time frame.

Purple Lounge, currently offering online poker, will expand to introduce new features almost monthly. They will be introducing some of the best bonuses and prizes on the web, bringing the cool and sophistication back to online gaming.

Purple Lounge has already attracted a significant amount of interest and the development of new features and functionality is already underway.
